Dear Mr. Csaba Glicza,

As the leader of the G4S Security Solution Hungary Armed Services Division provide a reference from our colleague.

He worked at the Cash Logistic site as a very thorough and reliable person. He was always honest with us, and G4S. He is informed about the necessary law, and other professional rules what was needed to the day-to-day job. Highly skilled in computers and technical equipment and disciplined witch is important in our profession.

There was no problem with his skills and knowledge level during the official police audit.

I highly recommended you to enrol him as a trustable person. You would get a person who know what he's doing, what his role not complain and his boss in the future won't be any problem with him.

Budapest, 24th October 2012
